

Thousands of applications. Hundreds of labels. **ONE** label printer.

new!

BRADY

The new Brady BMP71™ label printer

combines portable and thermal transfer printers into one. This new printer is versatile enough to print a variety of labels from 1/4" self-laminating wire marker labels to 2" wide vinyl pipe marker labels. Label design wizards allow electrical, voice/data comm and safety/general labels to be created and printed quickly. The Brady BMP71 also has material-recognition technology and storage space for over 100,000 label files and, prints labels at 1/5" per second. The large, full color graphical screen shows exactly what the label will look like, saving you time and wasted label material.

Display includes:

- Label material and ribbon part number
- Label color and size
- Application templates
- Font size and style
- Multi-area print areas
- Remaining battery charge

Other features include:

- Hundreds of symbols, subscripts and multiple font sizes
- Reverse printing, frame and mirror printing
- Vertical printing
- Time/date stamps
- Barcodes
- Sequence

BMP71™ Printer
